<b>Office Action Summary</b>	<b>Application No.</b> 10/592,926	<b>Applicant(s)</b> DEROO ET AL.	
	<b>Examiner</b> SATYA B. SASTRI	<b>Art Unit</b> 1796	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This office action is in response to application filed on 4/18/08. Claims 14-26 are now pending in the application.

2. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in France on 3/15/04. It is noted, however, that applicant has not filed a certified copy of the FR0402646 application as required by 35 U.S.C. 119(b).

### ***Claim Objections***

3. Claims are objected to following errors:

In claims 14 and 17, the narrow limitation following the broad limitation (optional ratios/%) should be deleted so as to clearly define the metes and bounds of the claimed subject matter.

In claim 18, the word "mineral" should occur once.

In claim 26, the word "formulation" should be in singular form, commas should be inserted where appropriate and the phrase "or a" should be inserted between "diaper pant" and "a building material".

In claim 23, line 5, a word is omitted between "copolymer" and "the matrix".

Appropriate corrections are required.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 14-26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The examiner cannot find support for “a water-soluble or water-dispersible block copolymer comprising one or more hydrophilic blocks A and one or more hydrophilic blocks B” as presently recited in claim 14. On page 12 of the specification, a water-soluble or water dispersible polymer comprising one or more hydrophilic blocks A and one or more hydrophobic blocks B is disclosed. It appears that the claims are unsupported by the specification.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 14-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 14 is drawn to “A dried emulsion comprising a matrix comprising a water-soluble or water-dispersible and having dispersed therein a liquid hydrophobic phase....”. The claim

Art Unit: 1796

language is confusing in that the phrase “having dispersed therein” suggests that the hydrophobic phase is dispersed in the matrix. However, it is unclear as to how the limitation “the weight ratio of between the hydrophobic phase and the matrix is greater than 50/50” can be met if the matrix comprises the water-soluble or water-dispersible polymer and the hydrophobic phase.

Claims 15-26 depend on the rejected base claim.
